75% Growth in Uninsured

What about Healthcare? America's immigration is out of control. Immigrants who have arrived since 1990 and their US-born children account for 75% of the growth in the uninsured population. America's health insurance crisis is largely being driven by its immigration policies. (Center for Immigration Studies)

\$330

Each year, every American Citizen pays approximately \$330 to provide less-educated immigrant households with government services. (Heritage Foundation)

\$2.6 Trillion Dollars

If Amnesty legislation, such as that proposed in 2007, were to be passed by Congress, American Taxpayers would have to pay at least \$2.6 Trillion in retirement costs to amnestied illegal aliens over the coming decades. (Heritage Foundation)

What can we do?

To avoid the cost of illegal immigration, the government should secure our borders, increase interior enforcement, and mandate the use of the E-Verify employment verification system. Legislation, called the SAVE Act, would do all three of these things. (Congressional Budget Office)

High Immigration = Bigger Government
